

IASI Backcountry security logged day requirements

As part of the IASI level 2 backcountry security requirements, candidates are required to do 10 logged off piste days which will be reviewed by the Mountain Guide before awarding the certificate.

The following off piste days must be logged with detailed descriptions of the weather, route, terrain and snow conditions and will be reviewed with the guide during or after the course.

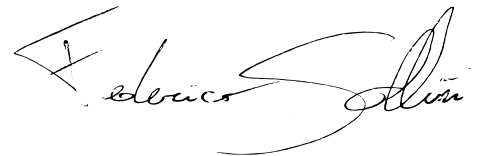

- 2 logged tours of 1000 metres of ascent away from any lift accessed terrain
- 2 logged tours of 500 metres of ascent away from any lift accessed terrain
- 2 logged off piste days requiring a boot pack within the resort boundary or accessed by lifts
 - 4 logged days of your choice from any of the above
